STATE OF INDIANA, MARION COUNTY, 83. IN THE MARION CIRCUIT COURT-APRIL TERM, A. D., 1850. WEDNESDAY, April 24th, 1850. William Sullivan. Administrator of the Estate of James B. Ray, deceased, es. short address. We wish to say distinctly, that such a work as this cannot be constructed without means. Our outlays this season, partly anticipating the payment of subscriptions, have necessarily been heavy, as they will continue to be, while we prosecute the work with energy. Our subscriptions, it is true, are large, but many of our subscribers seem to forget that we need the money. We want work through to the Onio line as fast as it is the interest of all that we should do. Shall we have your aid?

Our road is well and permanently located, entirely above the reach of high waters, upon the low governing grade of thirty feet to the mile—76 out of 83 miles are straight lines. All curves over 5,000 feet radius, permitting the highest rate of speed, passing through a country of unsurpassed ferdility, with no other outlet for its productions—connecting at the Onio line with the travel and business passing west of some Five or Six Railroads, and at the Capital of the State with the business and travel passing East of as many more—

With these facts before us, we feel confident that our stocks must prove a good investment of capital, and ultimately receive high rates of dividends. The Road will be of immense benefit to the whole country through which it passes—being superior in advantages, as experience has proved in other cases, to navigable rivers, and superfarming utensils, one two-horse wagon, household and kitchen fur-nture, and many other articles too tedious to mention. A credit of twelve months will be given on all sums over three dollars, by the and rewarding the industry of the people, building up the cities and towns, increasing the population and wealth, and giving life and energy to the whole country coming within the range of its influence.
